

# CISopto Products Newsletter

## December 2024

Welcome to our December 2024 Newsletter.

In this month's issue we focus on:

- New high-speed Revealer cameras from H F Agile
- Upcoming events for 2025 – NDA Supply Chain Event and IGNITE Space
- Christmas closure notice

### New product releases –

Introducing the new range of Revealer cameras from H F Agile: high-speed, rugged cameras, with versatility that lends itself perfectly to a wide range of industrial, research, machine vision and specialist applications!

#### [S Series](#)

Ultra-high-speed cameras for high-precision scientific research, aerospace and high-speed industrial fields. Applications include material stress-strain testing, fluid dynamics, precision time measurement, non-contact measurement of high-frequency vibration displacement and high voltage discharge.

#### [GR Series](#)

High-speed cameras realising real-time transmission of high-quality images and non-destructive data. With flexible support for F and C mount lenses and a compact, ultra-light weight design, GR series cameras support many flexible applications in the field of high-speed machine vision and high-speed production lines, including industrial fault detection and destructive testing in the field.

#### [G-Pro Series](#)

4K Movie Grade Digital HD High Speed Camera - the portable, compact design of the G-Pro series cameras lends itself to microscope/ endoscope and other integrations as well as outdoor high-speed shooting, with applications including film and sports, welding, large field of view strain field measurement and microfluidics.

### **NEO Series**

High-quality cameras for high-precision scientific research, aerospace and high-speed industrial fields. Applications include material stress-strain testing, fluid dynamics, precision time measurement, non-contact measurement of high-frequency vibration displacement and high voltage discharge.

### **Mini Series**

2 Megapixel HD High-Speed Cameras - professional broadcast image quality, with a compact size and large storage. Resilient cameras with a -35°C~60°C operating temperature and impressive shock and vibration resistance levels.

### **Upcoming events for 2025 -**

#### **NDA Supply Chain Event - The International Centre, Telford 16<sup>th</sup> January 2025**

The Nuclear Industry Association (NIA) is also holding its [Decom2025](#) conference at the same venue on the 15<sup>th</sup> January.

#### **IGNITE Space - National Space Centre, Leicester 5<sup>th</sup>– 6<sup>th</sup> February 2025**

The Ignite Space conference and exhibition is an opportunity to hear from industry leaders and engage with new customers, collaborators and investors within the UK space industry.

We're thrilled to be bringing a selection of our most innovative imaging solutions to such a remarkable venue. Why not register for free and visit CISopto on stand 28 for a live demo and to discuss your project goals with our team!

We'll also be returning to Automation UK in May and the PPMA Total show in September, NEC Birmingham - look out for more updates on these and other events early next year!

**Christmas closure -**

From all the team at CISopto Products, we'd like to thank you sincerely for working with us this year. Our offices will be closed for the holidays from 23<sup>rd</sup> December at 16:30, re-opening on 2<sup>nd</sup> January 2025 at 09:00 (GMT). If you have any queries please get in touch with our team via email to [sales@viewsecctv.com](mailto:sales@viewsecctv.com) or phone on +86-0755-86657548.

Thank you again, we hope you have a restful and enjoyable holiday period and we look forward to working together in 2025.
